# of Gator Amateur Radio Club

1st meeting <sup>was</sup> opened by Dr. Farber, <sup>K4AQR</sup> - Application forms given out. Constitution read to inform prospective members. Rules for operation of equipment to be followed:

1. Read operating instructions for each piece of equipment
2. Check antenna to be sure using right one.
3. C + S building closes at 11 - operation should be suspended after this time
4. Use good operating technique
5. Don't overload equipment.
6. Shut down immediately upon receiving complaints
7. Sign log with name + call etc.
8. Make no repairs on equipment.
9. Keep club upon neat!!!

Dr. Farber answered all questions concerning these rules + operation procedures. A description of equipment available for use of members followed.

Meeting of Gator Amateur Radio Club called to order by V.P. Max Robinson vice pres. in absence of pres. Barry Diamond. Minutes read & approved as read. We have received \$27 in dues which gives a total.

Tom brought up the question of having someone meet the net at least once a day. Jim meets Tropical net. Dr. Farber suggested that the Activities manager put a notice on bulletin board & get together on sched. Very worthwhile activity.

Band switch broken on 40+80 meters. Switch back & forth. Coke bottles should be taken out. Notice of schedule must be on neat piece of paper. Make sure you sign the log after each transmission. No one is to repair or work on equipment unless you have been cleared through Dr. Farber. The possibility of having a dummy load was then used.

Barry Brown

Meeting called to order by  
pres. Barry Diamond - Reminder  
to disconnect antennas especially  
in rainy weather. <sup>warning</sup> Report from <sup>official</sup> observer  
on one of new members. Sec. meets  
read & approved as read. Discussion  
of finances - 67.

keep books  
out of  
room

Announcement - black rig - transmit  
out of order - not getting bias  
Continue to meet nets.
