

Amateur Radio Station

LOG

AMERICAN RADIO RELAY LEAGUE
NEWINGTON, CONNECTICUT, U.S.A.

W4DFU

19 - Sept 1981, onward -
LOG FOR HF#2
TS 520 + Deutron

Book No.

From

~~February 1980~~ MAY 4 1981

To

17 / JAN 1982

Price \$1.75 in U.S.A.

IMPORTANT—FILL IN

The call of this station is W4DFU Unless otherwise noted in the "Other Data" column of this log: the operator for all transmissions is Recorded in Log times recorded are in GMT Time.
Station location 405A Weil Hall, Univ. of Florida
(signature) Gaineyville, FL 32611

Q SIGNALS

A Q signal followed by a ? asks a question. A Q signal without the ? answers the question affirmatively, unless otherwise indicated.

| | |
|-----|--|
| QRA | What is the name of your station? |
| QRG | What's my exact frequency? |
| QRH | Does my frequency vary? |
| QRI | How is my tone? (1-3) |
| QRK | What is my signal intelligibility? (1-5) |
| QRL | Are you busy? |
| QRM | Is my transmission being interfered with? |
| QRN | Are you troubled by static? |
| QRO | Shall I increase transmitter power? |
| QRP | Shall I decrease transmitter power? |
| QRQ | Shall I send faster? |
| QRS | Shall I send slower? |
| QRT | Shall I stop sending? |
| QRU | Have you anything for me? (Answer in negative.) |
| QRV | Are you ready? |
| QRW | Shall I tell you're calling him? |
| QRX | When will you call again? |
| QRZ | Who is calling me? |
| QSA | What is my signal strength? (1-5) |
| QSB | Are my signals fading? |
| QSD | Are my signals mutilated? |
| QSG | Shall I send messages at a time? |
| QSK | Can you work breakin? |
| QSL | Can you acknowledge receipt? |
| QSM | Shall I repeat the last message sent? |
| QSO | Can you communicate with direct? |
| QSP | Will you relay to . . . ? |
| QSV | Shall I send a series of V's? |
| QSW | Will you transmit on . . . ? |
| QSX | Will you listen for . . . on . . . ? |
| QSY | Shall I change frequency? |
| QSZ | Shall I send each word/group more than once? (Answer, send twice or . . .) |
| QTA | Shall I cancel number . . . ? |
| QTB | Do you agree with my word count? (Answer negative.) |
| QTC | How many messages have you to send? |
| QTH | What is your location? |
| QTR | What is your time? |
| QTV | Shall I stand guard for you . . . ? |
| QTX | Will you keep your station open for further communication with me? |
| QUA | Have you news of . . . ? |

NOTE: QST is a general call preceding a message addressed to all amateurs and ARRL members. This is a special abbreviation adopted by ARRL and means, in effect, "CQ ARRL."

THE R-S-T SYSTEM

READABILITY

- 1 — Unreadable.
- 2 — Barely readable, occasional words distinguishable.
- 3 — Readable with considerable difficulty.
- 4 — Readable with practically no difficulty.
- 5 — Perfectly readable.

SIGNAL STRENGTH

- 1 — Faint signals, barely perceptible.
- 2 — Very weak signals.
- 3 — Weak signals.
- 4 — Fair signals.
- 5 — Fairly good signals.
- 6 — Good signals.
- 7 — Moderately strong signals.
- 8 — Strong signals.
- 9 — Extremely strong signals.

TONE

- 1 — Sixty cycle a.c. or less, very rough and broad.
- 2 — Very rough a.c. very harsh and broad.
- 3 — Rough a.c. tone, rectified but not filtered.
- 4 — Rough note, some trace of filtering.
- 5 — Filtered rectified a.c. but strongly ripple-modulated.
- 6 — Filtered tone, definite trace of ripple modulation.
- 7 — Near pure tone, trace of ripple modulation.
- 8 — Near perfect tone, slight trace of modulation.
- 9 — Perfect tone, no trace of ripple or modulation of any kind.

If the signal has the characteristic steadiness of crystal control, add the letter X to the RST report. If there is a chirp, the letter C may be added to so indicate. Similarly for a click, add K. The above reporting system is used on both c.w. and voice, leaving out the "tone" report on voice.

IN AN EMERGENCY

- Monitor your local emergency net frequency.
- Make contact with your local EC or RO.
- Take immediate steps to follow any prearranged plans.
- Stay off the air unless or until you are *sure you can be of assistance.*
- Stay off the air unless or until you are *sure you can be of assistance.*
- In widespread emergencies, monitor WIAW for latest bulletin and news: phone on the hour, RTTY at 15 past the hour, cw on the half hour.

ABOUT THIS LOG

Although logging requirements have been eased in recent years, an accurate, complete and neat log book should be a matter of personal pride. It can also be a strong form of protection for you against possible claims by others of intentional interference or against troubles caused by unauthorized use of your call by "bootleggers."

A bound log is best so pages will not be lost. A log should be convenient to use. This log meets such requirements. It is designed to make it as easy as possible for you to comply legally with FCC requirements. This becomes a written diary of your amateur operation and should include everything that will be of interest to you in years to come, of which the required entries are just a small part. Log-keeping has room for display of much individuality and originality, just as do QSL cards. FCC requires you to retain your log for only a year, but most amateurs retain theirs indefinitely because your log reflects your personality.

STARTING THE LOG

In starting this log, first fill in and sign the box on the opposite page (inside cover). Show the name of the operator, the kind of time, and the station call. For a visiting or relief operator the signature can be entered in the OTHER DATA column, together with the time that such operator takes over the station. It is also required by the FCC's regulations that you must record the names of all third parties involved and a brief description of the content of the communication in which they were involved. Copy of a formal message would also comply.

The initial entry on opening the station is usually the DATE, recorded in the first (left-hand) column. The rest of the line may be left blank if there are no changes indicated. The left-hand column will thenceforth (until the date changes) show the TIME of each transmission. Thus, each day's activity is separated by a single line.

The second column for the STATION CALLED will have an entry whenever you call an individual station or net or call CQ. An X, or your own call, will then go in the third column. If someone calls you after a CQ, a line following the CQ entry can have an X in the STATION CALLED column and the calling station in the STATION CALLING column; or, if you prefer, you can make the entire entry on one line by simply indicating an X in column 2 and the calling station in column 3, just as you would if someone called you after you finished a QSO. If desired, this log can also be used to record "heard" calls with called and calling stations entered appropriately in the second and third columns respectively; in this case, of course, the X indicating your own call would not be used.

ENTERING OTHER INFORMATION

DATE, TIME OF TRANSMISSION and CALL should be "must" entries. HIS SIGNALS RST and MY SIGNALS RST often are desired information. The five columns at the right of the double line are grouped to show together all information about the station for which this log is kept.

FREQ. It is simplest to note the frequency used in MHz. . . 3.5, 7, 144, etc., as the case may be. Actual frequency may be entered if desired. An example of such an entry might be 3.825 or 14.013. All entries in the FREQ., EMISSION TYPE, and POWER INPUT WATTS columns cover all transmissions logged by you until a change in one or more of these items is indicated.

EMISSION TYPE, a statement of the type of emission may be accomplished by entries that follow the pattern of Section

97.61 of our FCC regulations. It is suggested that entries be made most simple as follows:

- A0: Steady, unmodulated, pure carrier.
- A1: Telegraphy on pure continuous wave.
- A2: Amplitude tone-modulated telegraphy.
- A3: Amplitude-modulated telephony.
- A3A: SSB reduced carrier.
- A3J: SSB suppressed carrier.
- A4: Facsimile.
- A5: Television.
- F1: Frequency-shift keying (fsk).
- F2: Audio-frequency-shift keying (afsk).
- F3: Frequency or phase modulated telephony.
- N.F.M.: Narrow band fm (phone unless tone-modulated telegraphy is indicated).
- P: Pulse.

POWER INPUT WATTS refers to the input power to the final amplifier stage (plate voltage times milliamperes divided by 1000).

TIME OF ENDING QSO, the last column before OTHER DATA is used to show the full period during which your communication took place. An entry should be made in this column for each station contacted, recording the time of signing off with that station.

The blank back of each log page is customarily used by operators for recording transmitter adjustments, data from antenna experiments, major station changes and other "diary" information.

OTHER DATA and sent-received columns for QSLs are provided at the right. The location (QTH) of stations worked can be recorded in this column. Normally this column is available to record "handle," remarks exchanged, traffic information, beam headings, interference, or test results, if desired. Note: Whenever any of the information recorded with your signature in the front of this book changes, it should be recorded at the proper place in the logging pages, with a clear indication showing how many entries it covers.

Whenever any calls are made, an entry should be shown in the column on the extreme left. Subsequent entries are not required during several sequences of transmissions with the same station. If a station does not answer a call there will be no entry in the TIME OF ENDING QSO column.

Regarding message traffic: the FCC requires that the amateur's log contain a notation of messages sent or received, including names of all third parties, and a brief description of the traffic content. There is no requirement that a copy of the message be retained, but doing so is one way of satisfying the FCC requirement. This particular entry may be in a form other than written, provided that it can be readily transcribed into written form if necessary.

Bound into this Logbook is the latest printing of the ARRL DXCC List, the "official" guide to the popular DXCC Award. If an unusual prefix shows up on the bands check this list first. If a prefix is very new you may not find it on the DXCC list. In that event look at the International Prefix List, inner back cover.

A copy of ARRL CD Form 3 has been included for keeping track of originated message numbers and for reference to precedences, handling instructions and numbered message texts. Additional copies are available free on request. On the inside covers and introductory page of this log you will find tabulations of the Q Code, international prefixes, ITU Phonetic Alphabet and signal-reporting scales for your convenience.

Snappy clean-cut amateur operating is most worthwhile. A few operating periods given up to study of standard operating procedures will pay rich dividends in the satisfaction that comes as you establish a reputation for proficiency and better-than-average operating ability.

Courtesy and sportsmanship are assets in radio operating as in every human activity. Frequency observance is of tremendous importance. *Checking frequency often* is especially important. Keep within proper amateur frequency bands and segments at *all* times. Have fun, promote fraternalism, lend *part* of your time to useful objectives in operation that will add to the record of amateur training or public service. Accept constructive appointments that build an *organized* amateur radio!

George Hart, W1N1M

ARRL Communications Manager

| 2400* | 2000 | 1900 | 1800 | 1700 | 1600 |

UTC is the time at the zero or reference meridian. Time changes one hour with each change of 15° in longitude. The five time zones in the U.S. proper and Canada roughly follow these lines.

*0000 and 2400 are interchangeable. 2400 is associated with the date of the day ending, 0000 with the day just starting.

Additional copies of this log can be purchased at your dealer or direct from ARRL, Newington, Connecticut 06111, at \$1.75 each postpaid in the U.S.A., \$2.00 elsewhere. We also publish a Minilog, 4 X 6 inches, more convenient for portable and mobile stations, at 75 cents postpaid in the U.S.A., \$1.00 elsewhere, our Publication No. 17.

From New York proceed off, I have been too busy
to write you more particularly with W.C.M.H. &
11:30 morning for some part of the morning but no
no more 1:30 and the weather still remains hot no
more at night. My love
Ella Dix
